

VCE Physics – Units 3 & 4

A Checklist for “What I did wrong” on the Test

Topic:	Fields	Electrical Energy	Motion	Waves and Light	Light and Matter	Trial Paper	Trial Paper	Trial Paper	Trial Paper
Where I Lost Marks									
Date:									
I didn't understand the question									
I read the question incorrectly									
My explanation was wrong									
My explanation was confused									
My explanation had contradictions									
I didn't know what relationship to use									
I made a power of ten error									
I didn't use consistent units									
I made a calculation error									
I ran out of time									

As you complete each topic test and trial exam paper, identify where you lost marks. Is there a pattern in how or where you lose marks? What strategy can you adopt to eliminate this error?
